

Assignment-10: Getting Data off the Internet
Subject: Computer Science Workshop - 1 (CSE 2141)
Session: Sep 2025 to Jan 2026

Branch: Computer Science and Engineering (CSE)

Section: All

Course Outcome: CO6

Program Outcomes: PO1, PO2, PO3, and PO5

Learning Levels: Remembering (L1), Understanding (L2), Application (L3), Analysis (L4)

Q no.	Questions	Learning Levels
Q1.	Objective: To download real-time stock market data from the Internet, process it using Pandas and NumPy, and visualize it using Matplotlib. Step 1: Package Installation and Import Step 2: Download Stock Data Step 3: Explore the DataFrame Step 4: Plot Closing Price of a Stock Step 5: Plot Two Stocks on the Same Graph	L2, L3
Q2.	Objective: To download or load real-world weather data, process it using Pandas and NumPy, and visualize weather trends using Matplotlib. Step 1: Package Installation and Import Step 1: Download / Load Weather Data Step 3: Explore the DataFrame Step 4: Plot Daily Temperature Trend Step 5: Add Title, Labels, and Legend	L2, L3
Q3.	Objective: To load real-world sales data, process it using Pandas and NumPy, and visualize sales trends using Matplotlib for analysis and comparison. Step 1: Package Installation and Import Step 2: Load Sales Data Step 3: Explore the DataFrame Step 4: Plot Sales Trend Step 5: Identify the month with the highest sales.	L3, L4

Q4.	Objective: To load real-world COVID-19 (health) data, process it using Pandas and NumPy, and visualize health trends using Matplotlib for analysis and comparison. Step 1: Package Installation and Import Step 2: Load COVID-19 Data Step 3: Explore the DataFrame Step 4: Plot Daily Confirmed Cases Step 5: Plot Multiple COVID-19 Parameters on the Same Graph	L3, L4
Q5.	Objective: To load real-world population data, process it using Pandas and NumPy, and visualize population trends using Matplotlib for analysis and comparison. Step 1: Package Installation and Import Step 2: Load Population Data Step 3: Explore the DataFrame Step 4: Plot Population Growth of One Region Step 5: Compare Population Growth of Two Regions	L3, L4
